PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production-ready AI-powered SaaS platforms and scalable web applications using Next.js, React, TypeScript, Node.js, MongoDB, and Supabase. Experienced in integrating Gemini AI, developing secure authentication systems, REST APIs, and responsive web applications. Passionate about building intelligent software with clean architecture, modern engineering practices, and exceptional user experiences, with products serving 100+ real users.

EDUCATION

Global Institute of Engineering and Technology <i>B.Tech in Computer Science Engineering CGPA: 9.65</i>	Hyderabad, India 2024 – 2028
Sri Chaitanya Junior College <i>Intermediate Percentage: 90.7%</i>	Hyderabad, India 2022 – 2024

EXPERIENCE

AI & Full Stack Development Intern <i>Optern</i>	June 2026 – Present <i>Remote</i>
- Contributed to the development of production-grade AI SaaS platforms using Next.js, TypeScript, and Supabase within a startup environment. - Migrated legacy applications to modern architectures, implemented scalable dashboard features, reusable components, authentication workflows, and database schema improvements. - Collaborated through GitHub-based development workflows, feature reviews, and agile engineering practices while maintaining production-ready code quality.	
Junior Node.js Developer Intern <i>Yuva Intern</i>	May 2026 – June 2026 <i>Remote</i>
- Developed secure RESTful APIs using Node.js, Express.js, and MongoDB with scalable backend architecture. - Implemented JWT authentication, protected routes, backend validation, and API integrations to improve application security and reliability.	
Web Development Intern <i>CodSoft</i>	Apr 2026 – May 2026 <i>Remote</i>
- Developed responsive web applications using HTML, CSS, and JavaScript following mobile-first design principles. - Built modern landing pages and interactive user interfaces using Flexbox, CSS Grid, animations, and responsive layouts.	

PROJECTS

Career Copilot — AI Career Intelligence Platform <i>Next.js, TypeScript, MongoDB Atlas, Gemini AI</i>	Live
- Engineered a production-grade SaaS AI Career Intelligence Platform using Next.js, TypeScript, MongoDB Atlas, Tailwind CSS, and Gemini AI, featuring ATS analysis, recruiter-style feedback, semantic resume optimization, personalized career insights, AI-powered project recommendations, resume history, and 23 professionally designed resume templates inspired by Canva and LaTeX styles. - Developed an intelligent Live AI Resume Editor with real-time ATS score synchronization, AI-assisted content rewriting, responsive web and mobile applications, and customizable PDF resume export with user-defined file naming for a seamless full stack development workflow. - Architected a resilient AI orchestration layer for full-stack AI applications using Gemini AI with round-robin API key rotation, automatic fallback models, intelligent retry mechanisms, and failover handling to ensure reliable and scalable AI-powered resume analysis. - Built secure JWT authentication, scalable backend services, and optimized REST APIs to deliver production-grade performance, security, maintainability, and seamless cloud deployment on Vercel. - Designed a modular full-stack architecture with reusable components, optimized state management, and scalable code organization, enabling faster feature development and long-term maintainability. - Successfully executed production deployment, serving 100+ real users and completing 165+ AI-powered resume analyses with strong returning-user engagement through continuous software engineering, product enhancements, and user experience improvements.	

Quizify — SaaS Quiz Creation Platform | *React, TypeScript, Zustand, Tailwind CSS*

[Live](#)

- Developed a SaaS-inspired quiz platform supporting quiz creation, personalized learning, analytics dashboards, XP progression, and interactive learning workflows.
- Engineered an engaging quiz experience with timers, keyboard navigation, answer review, result analytics, and fully responsive user interfaces.

Developer Portfolio — Interactive Portfolio Website | *Next.js, TypeScript, Tailwind CSS, Framer Motion* [Live](#)

- Designed and developed an interactive developer portfolio showcasing AI SaaS products, internships, technical expertise, and project case studies with recruiter-focused presentation.
- Implemented Framer Motion animations, glassmorphism UI, command palette interactions, responsive layouts, and performance optimizations for an engaging user experience.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, Responsive Web Design, Vite

Backend: Node.js, Express.js, REST APIs, JWT Authentication, OTP Authentication

Databases: MongoDB Atlas, MongoDB, Supabase, Mongoose

AI & LLM: Gemini AI, AI API Integration, Prompt Engineering, AI Orchestration, LLM Application Development, Intelligent Workflow Design

Developer Tools: Git, GitHub, Postman, VS Code, Vercel
